

RESPONSE TO RESTRICTION REQUIREMENT & PRELIMINARY AMENDMENT

Serial Number: 10/006,292

Filing Date: December 3, 2001

Title: ELECTRONIC ASSEMBLY WITH SANDWICHED CAPACITORS (as amended)

Assignee: Intel Corporation

Page 12

Dkt: 884.534US1 (INTEL)

REMARKS

In response to the Restriction Requirement mailed on August 15, 2003, claims 38-64 are canceled. As a result, claims 1-37 are now pending in this application.

Amendments to the Title and Specification

The title has been amended to more accurately reflect the claimed subject matter.

On page 1, lines 8-12, Applicants have substituted the word "application" for "invention".

On page 1, lines 13-14, Applicants have updated the status of a related application.

On page 1, line 16, Applicants have substituted the sub-title "Technical Field" for the sub-title "Technical Field of the Invention".

On page 1, line 24, Applicants have substituted the sub-title "Background Information" for the sub-title "Background of the Invention".

On pages 3, 6, and 7, the phrase "an embodiment" has been substituted for "one embodiment".

On page 6, Applicants have substituted the sub-title "Detailed Description" for the sub-title "Detailed Description of Embodiments of the Invention".

Regarding the paragraph beginning on page 6, line 7, the sentence "Such embodiments of the inventive subject matter may be referred to, individually and/or collectively, herein by the term 'invention' merely for convenience and without intending to voluntarily limit the scope of this application to any single invention or inventive concept if more than one is in fact disclosed." has been appended.

On page 31, the sub-title "Conclusion" has been deleted.

In general, Applicants have made several amendments to the specification by deleting wording that refers to the "invention" without referring to one or more embodiments of the invention, and by substituting "embodiments of the invention" or "inventive subject matter" for "invention" or "present invention". No new matter has been added by way of these amendments to the specification.
